EDUCATION

University of Toronto | *BSc in Computer Science & Minors in Game Studies & Math* Sep 2023 - Present (4th Year)

- **Relevant Courses:** Data Structures & Analysis, Software Design, Software Tools & Systems Programming, Theory of Computation, Probability & Statistics, Linear Algebra

EXPERIENCE

Coding Instructor | *Ultimate Coders - Burlington* Aug 2025 - Present

- **Explain** code clearly (Scratch, Python, HTML/CSS/JS, Arduino) and make complex concepts understandable
- **Adapt** quickly to different learner styles in small groups and project-based settings, and apply them to students

VP Marketing | *Mathematical & Computational Sciences Society (MCSS)* Aug 2026 - Present

- Co-lead marketing strategy and creative direction for one of UTM's largest academic student societies, coordinating social media, photography, videography, and graphic design initiatives

PROJECTS

HerCloset | *TechNisa Hackathon* Aug 21 - Aug 23, 2026

- Built an AI-powered modest-fashion discovery platform that filters clothing across retailers based on personalized coverage preferences alongside a teammate. **AI-Powered Web Development**

Custom Linux Shell | *CSC209 - University of Toronto* Jan 2026 - Apr 2026

- Engineered a fully functional **C-based shell** featuring **process management** (fork/exec, signals, background tasks), I/O redirection, and a custom heap-allocated environment variable system.
- Developed an integrated **TCP/IP** networking suite, including a non-blocking **multi-client chat server** and messaging protocol using **socket** programming and low-level system calls. **Systems Programming**

Personal AI Assistant App | *W3NG - Bootcamp led by Siraj Sabihuddi.* June 2024 - Aug 2024

- Developed a privacy-focused personal **AI assistant** using a custom **private language model** while collaborating within a project-based bootcamp team **AI/ML Development**

Personal Portfolio Website | *React, JavaScript, HTML/CSS* May 2026 - Jul 2026

- Built with **React, JavaScript, HTML/CSS**, React Router, WebGL, and responsive design. **Web Development**

MS Paint Program | *CSC207 - University of Toronto* Sep 2025 - Nov 2025

- Developed a **JavaFX** paint application in a 4-person **SCRUM** team, using **Git branching** and object-oriented design patterns (**OOP**) to build interactive application features. **Software Development**

TECHNICAL SKILLS

Languages/ Skills: Python, C#, C, Java, HTML/CSS/JS, React, Git, GitHub, JavaFX, SCRUM, OOP, API, TCP/IP

Frameworks/IDEs: Visual Studio, JetBrains, PyCharm, Wing 101, Linux, IntelliJ

Web Tools: Photoshop, Illustrator, Lightroom, Audition, Maya, Unity, InDesign
